REPORT ON: “SAFE HANDS” – WORKSHOP ON INFECTION CONTROL

“SAFE HANDS” Workshop on Infection Control was organized on 10th January 2019 by Bharati Vidyapeeth (Deemed to be) University, College of Nursing, Pune, Student Nurses Association in collaboration with Bharati Vidyapeeth Medical College Hospital & Research Centre, Infection Control Department and Bharati Vidyapeeth College of Nursing, Department of Medical Surgical Nursing under the stewardship of Principal Dr. Khurshid Jamadar between 12:30 PM to 3:00 PM at the Conference Hall, Bharati Vidyapeeth College of Nursing, Dhankawadi, Pune.

Esteemed resource persons comprised of **Dr. Anuradha Tolpadi Madam**, MD, DCP, Associate Professor, Microbiology Dept. (Infection Control Officer) Infection Control Dept. and **Dr Abhijeet Mane**, MD, Assistant Professor, Microbiology Dept. (Coordinator), Infection Control Dept. and the team of Infection Control Nurses together with Mr.Sujitkumar Landge, Acting Incharge, Mr.Ritesh Chavan, Ms. Swapnali Waghpure, Ms.Sukanya Gajbar, Mrs.Tanuja Shilawat, Mr.Sureskumar and Mr.Pankaj Rajguru.

The workshop was commenced by awarding a floral bouquet to the resource persons by the hands of the Principal as a gesture of welcome followed by a message on the Importance of Infection Control in Nursing was presented by Dr. Khurshid Jamadar Madam to the eagerly anticipating Students.

A detailed Lecture on Infection Control was addressed by Dr. Anuradha Tolpadi Madam which consisted of comprehensive aspects mentioned in the workshop and it provided an insight for the students regarding the core concept of the program.

Washing of hands properly is one of the most important things to do to help prevent and control the spread of many illnesses. Good hand hygiene will reduce the risk of things like flu, food poisoning and healthcare associated infections being passed from person to person. But remembering the steps is always a big puzzlement. Therefore, students of third Year BSc Nursing performed a Dance on the Steps of Hand Washing.

There were 05 aspects and contents included in the workshop which covered detailed theoretical, practical and skill related features of Infection Control. There were in total 04 Skill Stations divided among 115 nursing students each consisting of a group of 30 students set at each skill station. The Skill Station consisted of Hand Rub-Hand Wash, Biomedical Waste Management, Needle Stick Injury, Blood Spill Management and Personal Protective Equipment.

A Question-Answer Session was intermittently placed to help students clarify their doubts and understand key points with regular intervals. The closing session included a summarization of the entire workshop by Dr. Abhijeet Mane Sir and the team which helped the student recollects important points associated with each skill station.

The program was concluded with a Vote of Thanks by Mr. Shailesh Pokharkar (SNA Health Representative) and Valedictory session upon which the Resource Persons and Organizing Committee members were awarded with a Token of Appreciation Certificate.

The workshop concluded successfully.

Mr. Larry Bobby Wagh
