Name of the activity	: Visits to Understand Rural Health care administration and services for International (USN, Norway) students
Date	: 6 th March 2023 - Monday
Name of faculty member	: Mrs. Vinita Jamdade, Dept. of CHN
Batch and students name	: SY M.Sc.(N) – Pratik S., Vaibhav S., Manasi G.
Name of international students	: Vibeke Aby and Martine

On 6th March 2023, Bharati Vidyapeeth College of Nursing, Pune Faculty Member & the students along with the international students from USN, Norway had visited rural Subcentre of Jambhali and Primary Health Centre of Karanjavane under Bhore Taluka of Pune district. They first visited the Subcentre of Jambhali, where the international students were oriented about the structure and layout of Subcentre. They were briefed about the population covered and the various functions being carried out for the village along with implementation of various national health programs. The students got the opportunity to observe the immunization program being performed. They got to know about the activities being carried out by the CHO, ANM and ASHA.

In addition, they were introduced to the AYUSH program which has been beneficial to the villagers, ANC clinics and IEC activities conducted by the health team.

They then visited the Anganwadi of Jambhali where the AWW provided the information about the teaching activities being done for the children. Along with education it also provides nutritional meals to the children which are attending the Aanganwadi.

After Jambhali, we visited to Primary Health Centre, Karanjavane.

The international students were oriented about the structure and layout of primary health centre. They were briefed about the population covered and the various functions being carried out for the village along with implementation of various national health programs. They got to observe the various facilities being available at the primary health centre like OPD, pharmacy section, vaccination room, procedure room, breastfeeding zone, operation theatre, labor room, emergency department, clinical lab, IPD wards and ambulance services. They were informed about the various records being kept and the manpower available at the hand.

Furthermore, they were informed about referral chain which is being practised at the rural level for any emergencies, and provided information about the different family planning options to choose from along with monetary benefits available for adopting permanent sterilization.

We have also provided them additional information about the Boat Clinic, Bhutonde which is available for villages where health centres are not available and for areas which are difficult to reach by road but the services are provided through waterways and at a very cheap cost for the population residing in such areas.

SUBCENTRE, JAMBHALI

PRIMARY HEALTH CENTRE, KARANJAVANE

While coming back to the college they had their Lunch. It was our privileged to serve them with traditional Maharashtra thali. They enjoy the food.

Reflection Meeting: *In the reflection meeting at Bharati Vidyapeeth College of Nursing, Pune, Both the International Students from USN, Norway expressed that it was a nice interactive visit to understand rural health care administration and delivery system. They recommended that such kind of visits and experiences will be meaningful not only to PG students but also the UG students also. They mentioned that they liked Indian Culture, Values, Traditional practices and off course the food.*
